

**All-Round Reflectivity:**  
Incorporating 3M Reflective.  
Enhances visibility in low light &  
aids road running safety.

**ANTI-MICROBIAL TREATMENT**  
Designed to inhibit the growth of bacteria, fungus & other odour-causing microbes. Gives long-lasting hygienic freshness.

**Fitted Tongue Lace Loops:**  
Ensure tongue remains in place at ALL times.

**SOLITE EVA SOCKLINER**  
Enhanced removable moulded EVA sockliner for additional comfort & support.

**U-Heel:** Anatomically shaped around heel & ankle to aid fit & help prevent Achilles tendonitis.

**Woven Heel Pull:** For faster 'doff & doff'

**SKELETAL SUPPORT STRUTS**

Reflective skeletal construction to radically enhance upper stability & fit.

**3M**  
Reflective for Road Running Safety

**3M**  
Reflective for Road Running Safety

**Synthetic Leather:**  
Provides additional strength & durability to upper.

**Royal Air Mesh:**  
soft, durable, breathable, high-performance mesh designed to regulate foot temperature.

**SOLITE EVA MID-SOLE**

A unique EVA compound that reduces the weight of the midsole by 15% whilst maintaining durability & cushioning.

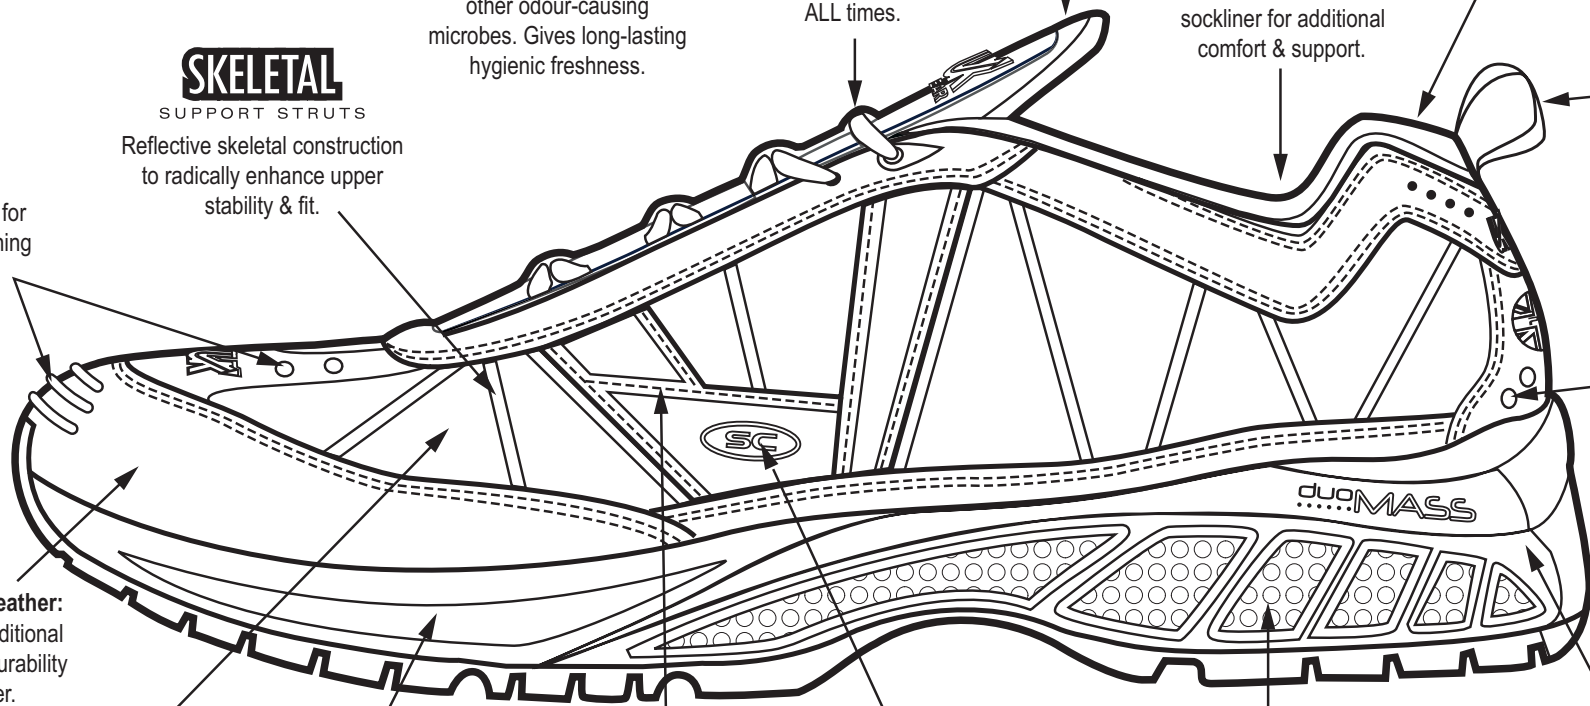

**Strategic Paneling:**  
For side foot structural support. 3M Reflective logo on lateral panel.

**SC**  
Structured cushioning for comfort & support

**S+S PLATES**  
Strengthening & Stabilising polyurethane medial support plates. Torsional support & durability. Utilises reflectivity for road safety.

**DUOMASS COMPOUND**

2nd density EVA compound for enhanced medial motion control. Helps avoid overpronation.

**Directional Traction Lugs:**  
Lightweight & durable carbon rubber for grip in ALL outside conditions.

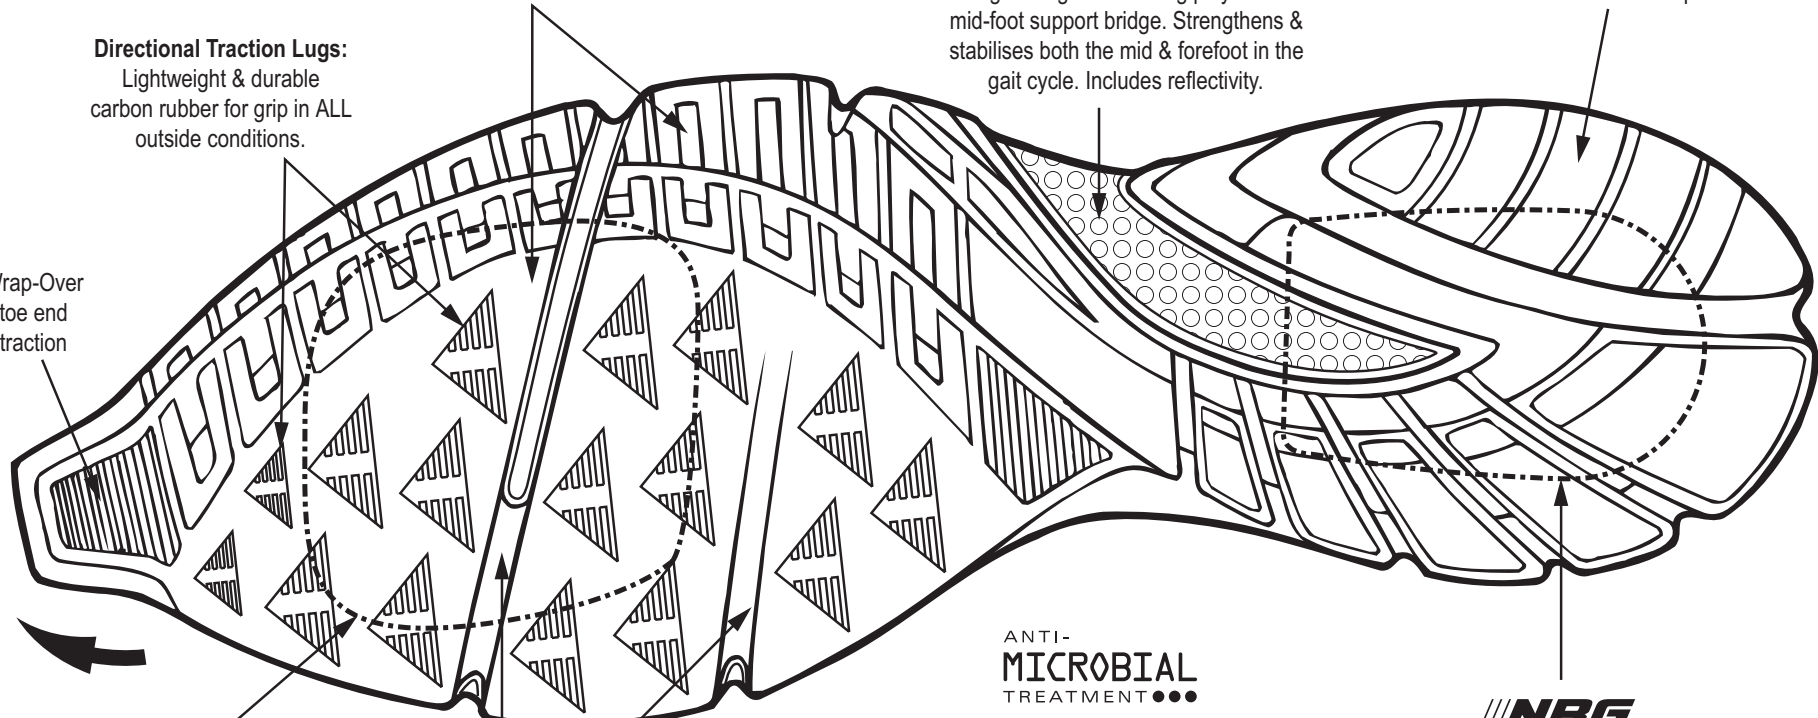

Wrap-Over toe end traction

**Highly Durable Carbon Rubber Sole:** Designed for on & off road traction.

Strengthening & Stabilising polyurethane mid-foot support bridge. Strengthens & stabilises both the mid & forefoot in the gait cycle. Includes reflectivity.

**Structured Landing Area:**  
Lessens heel impact.

(Inside) Highly-responsive, technical FOREFOOT compound inlaid to compliment your foot's Natural Energy Return during 'toe-off'.

Anatomically aligned grooves that echo the natural movements of the foot.

Designed to inhibit the growth of bacteria, fungus & other odour-causing microbes. Gives long-lasting hygienic freshness.

(Inside) Super-absorption blown HEEL compound with a unique molecular structure that gives 28% more cushioning, inlaid to minimise impact through the body.
